PILOT ROCK WATER RATE INCREASE

There were no fees that increased in 2020 and many of you know, costs have increased. The cost of installing water meters rose over 24%. The State compliance requirements for safe drinking water increased 10% since 2019. The overall current inflation has also been a major factor which has grown a whopping 5.4% this year so far. This greatly affects the cost of our materials and supplies required to maintain the water system. The last water rate increase was in May 2018. The city has approved a 4.15% increase to assist in operating our water system. For most residents it's only a \$1.24 monthly increase. We appreciate your understanding why the increase is necessary, and we are here to answer any questions, just contact City Hall.

The Mayors Minute or two..

Well it seems we are all up in the air again with "Covid Delta Variant" aren't we? Hopefully our fall activities will be a good distraction with the harvest festival and Roundup, since masks will be required outside in crowded venues. How much will you be participating?

I am also trying to find out if it is necessary to have a waiting period between my regular flu shot and a Covid booster! When I find out I will surely let you know. It seems likely that there should be, but?

For those of you who remember Larry Christman, Pilot Rock's interim school superintendent from Wallowa County. It is sad to report of his passing last weekend, he will be fondly remembered.

It feels like Fall is here – or at least not hot hot :O) Do have a good couple of weeks and remember we live in the best place in the world and are so rich in so many, many ways regardless as to how it appears sometime. I did hear a memorable quote the other day. "Winners do what losers won't." There is some food for thought.
